# MANNY MANNING

Designer

London, United Kingdom

## COVER LETTER

My name is Abdur Ruhman Manning, but you can call me Manny.

With five years of experience in Graphic design, I have grown in creativity both as a freelancer and within companies. I first started at Orangepeelstudios, a freelance-based design agency

where I found myself in projects for a fulfilling two years. From creating captivating interfaces to just dancing with pixels, my time at Orangepeelstudios made me into the designer I am today.

Seeking a new job I found my way to OVOWebsolutions. contributing my skills and insights to an large range of exciting projects for a year.

My passion for UI design is more then just pixels it's a passion for creating experiences that resonate with users on another level. Whether I'm sketching, wireframing, prototyping, or even pushing pixels, I try to keep each project a blend of creativity, empathy, and attention to detail.

As a lover of all things design, I love myself a collaborative environments, with a creative brain storm. I believe that great design is not just about aesthetics, it's about building a connections and making the world a little brighter, one pixel at a time.

I am eager to bring my unique blend of experience, creativity, and British charm to your company, where I am confident that I can contribute to the team's success and help bring your vision to life.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and personality align with the culture, goals, and company.

## EXPERIENCE (PAGE 1)

### Junior UI Designer

Orangepeelstudios - Full Time Remote - WorldWide

As a Junior Design Intern at OrangePeelStudios, I had a valuable opportunity to learn and grow my creative skills in a professional environment. Under the supervision of experienced designers, I gained hand to hand experience from many different design projects and contributed to the success of the team.

During my time at OrangePeelStudios, I was an active member involved in the design process from beginning to end. Working close with the clients and the team, I gained a useful understanding of client requirements and how to effectively bring their vision into amazing and stunning designs. No matter what i was designing, I was able to create and deliver impactful design solutions.

One of the main thing that I think I learned during my time at OrangePeelStudios was the skill behind understanding the client target audience, market trends, and competition, This will help me out a lot when it comes to creating a visual appealing design that fits the client ideals.

I also was involved in real time team brainstorming sessions, I tried to contribute as much as i could give up my ideas and suggesting my own design concepts.

I have to say that im really great full for my time at OrangePeelStudios and the opportunity to work with experienced designers and im grateful to know that I walked a way with ten time more experienced and capable then I came in

## EXPERIENCE (PAGE 2)

### Junior UI Designer

Orangepeelstudios - Full Time Remote - WorldWide

I worked with a great time at Ovoweb Solutions as a UI/UX Designer for a period of one year, from 16/3/2023 to 2/5/2024. During my time there, I believe I proved to be an integral part of the design team and showed amazing growth in my skills.

Ovoweb Solutions is a dynamic and fast-paced design agency where we often have to manage multiple projects at once. As one of only four designers, I was always had to take on a significant share of the work, which I believe I handled exceptionally well. The team was mainly impressed by my ability to manage deadlines while maintaining the quality of work, and I had to contribute to the success of the projects.

Coming from Orangepeelstudios, My development as a designer was really noticeable. I made sure to sharpen my ability to balance user needs with visually appealing designs. Throughout the year that I worked there, they consistently produced work for clients that went beyond their expectations.

I have good dedication, and attention to detail, and collaborative spirit. I worked closely with both designers and developers, contributing ideas that improved the user experience of the projects I worked on. I have no doubt that I will bring the same level of commitment and creativity to any future role.
